Software Testing for FlexiDesk

FlexiDesk Objective

The purpose of FlexiDesk is to allow LEAPDev to provide a secure, user friendly application for employees to reserve desks within the office.

Admin will have the ability to create, edit and delete users as well as creating, editing, and deleting desks. Admin will also have an overview of all future bookings and past bookings.

Users will have the ability to securely log in, view their past and future bookings as well as make any new bookings.

Quality Objective

In this manual Software Testing Document, the objective is to:

- Identify what features and functionality will be tested in this release;
- Ensure the applications is functional;
- Ensure the application meets the quality specifications defined by the client; and
- Ensure that the bugs/issues are identified and fixed before they go live

Roles and Responsibilities for Testing

Developers – Rachel, Tom and Callum

Quality Testers – Rachel Williams, Tom Fisher and LEAPDev

Test Deliverables

This test will cover:

- 1. Feature and function testing according to the test plan;
- 2. Test cases based on R4. User Stories of the FlexiDesk READme.md;
- 3. Bug report; and
- 4. Customer /Tester signoff

Test Plan

| Test Title Type | Test Number | Test Date |
|----------------------------------|------------------|-----------|
| Production (www.flexi-desks.com) | 2 | 18/1/2021 |
| | | |
| Test Created By | Test Executed By | Devices |
